1. APPLICATIONS/QUALIFICATIONS

Pilotage Exemption Certificates (PECs) for the Port of Milford Haven will be granted by the Milford Haven Port Authority (hereinafter referred to as “the Authority”) to persons who are bona fide deck officers of a ship and who have satisfactorily completed the following: -

(a) Tripping requirements for the zone and size of vessel (see below).

Note: Irrespective of the tripping requirements stated below, candidates applying for an exemption certificate for the first time will be required to undertake a minimum of 6 trips in and 6 trips out to and from any berth within the Haven. At least 50% must be undertaken during the hours of darkness. Trips must be taken within the 12-month period prior to the examination date. The applicant must be named as the person in charge on iMap and on the Master/Pilot exchange form and should ‘have the con’ for the manoeuvre.

(b) Attended VTS familiarisation.

(c) Online application form

(d) Oral examination arranged by the Authority

(e) Simulator training in emergency response in Pilotage waters (An up-to-date safety certificate is required)

(f) Tug endorsement requirements. Only required if tugs are needed to connect. A pilot can also be used.

2. VESSELS

The list of vessels for which the exemption certificate holder may apply will be limited by the Authority at their discretion to those of a similar size or handling characteristics such as sister ships.

3. ZONES

Zone 1 - From seaward as far as the western extremity of the South Hook LNG Jetty via the East and West Channel

Zone 2 - From the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut

Zone 2H - South Hook LNG Terminal

Zone 2EE - Puma Energy Milford Terminal 1, 2

Zone 2V - Valero 1, 2, 3, 6, 7, 8

Zone 2D - Dragon LNG Berth 1

Zone 2PP - VPOT 2 & 3

Zone 3EE - Puma Energy Milford Terminal 3

Zone 3V4 - Valero 4

Zone 3V5 - Valero 5

Zone 4 - Milford Dock and the approach channel thereto

Zone 5 - From the Wear Spit to the Cleddau Bridge

Zone 5P - Pembroke Port

Zone 5F - Pembroke Dock Ferry Terminal

Zone 5C - Carr Jetty

Zone 5M - Offshore Jetty

Zone 6 - Pennar Gut

Zone 7 - Cosheston Pill

4. TRIPPING REQUIREMENTS

ZONE 1 - From seaward as far as the western extremity of the South Hook LNG Jetty

a) *A ship of 50m but not exceeding 130m in length overall.*

1 trip inwards and 1 trip outwards via both the East and West channels with a Milford Haven authorised pilot. At least 1 inward trip and 1 outward trip to be during the hours of darkness

THE UK'S LEADING ENERGY PORT

Document Number	MAR-OPS-GUI-003			
Document Name:	Pilotage Exemption Certificate Requirement			
Date Issued:	11/10/2025	Revision:	0	
Sensitivity:	Public	Page No:	5	

b) *A ship of 130m but not exceeding 190m in length overall.*

3 trips inwards and 3 trips outwards via both the East and West channels with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 2 inward trips and 2 outward trips to be during the hours of darkness.

c) *A ship of over 190m in length overall.*

20 trips inwards and 20 trips outwards via the West channel with a Milford Haven authorised pilot. 50% of the trips to be during the hours of darkness.

ZONE 2 - From the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut

a) *A ship of 50m but not exceeding 130m in length overall.*

3 trips inwards and 3 trips outwards from each terminal between the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 1 inward and 1 outward trip to each terminal to be during the hours of darkness.

b) *A ship of 130m but not exceeding 150m in length overall.*

6 trips inwards and 6 trips outwards from each terminal between the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut with a Milford Haven authorised pilot or at least 6 trips with a Milford Haven authorised pilot and 6 trips with an exemption certificate holder. At least 50% of the trips to each terminal to be during the hours of darkness.

c) *A ship of 150m but not exceeding 190m in length overall;*

10 trips inwards and 10 trips outwards from each terminal between the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut with a Milford Haven authorised pilot or at least 10 trips with a Milford Haven authorised pilot and 10 trips with an exemption certificate holder. At least 50% of the trips to each terminal to be during the hours of darkness.

d) A ship of over 190m in length overall.

20 trips inwards and 20 trips outwards from each terminal between the western end of South Hook LNG to Wear Spit beacon excluding all inside berths, Milford Docks and Pennar Gut with a Milford Haven authorised pilot or at least 20 trips with a Milford Haven authorised pilot and 20 trips with an exemption certificate holder. At least 50% of the trips to each terminal to be during the hours of darkness.

ZONE 2H - South Hook LNG

a) A ship of 50m but not exceeding 130m in length overall;

3 trips inwards and 3 trips outwards from South Hook LNG with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

b) A ship of 130m but not exceeding 150m in length overall;

6 trips inwards and 6 trips outwards from South Hook LNG with a Milford Haven authorised pilot or at least 6 trips with a Milford Haven authorised pilot and 6 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

c) A ship of 150m but not exceeding 190m in length overall;

10 trips inwards and 10 trips outwards from South Hook LNG with a Milford Haven authorised pilot or at least 10 trips with a Milford Haven authorised pilot and 10 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

d) A ship over 190m in length overall;

20 trips inwards and 20 trips outwards from South Hook LNG with a Milford Haven authorised pilot or at least 20 trips with a Milford Haven authorised pilot and 20 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

ZONE 2E - Puma Energy Milford Terminal 1 & 2

- a) A ship of 50m but not exceeding 130m in length overall.

3 trips inwards and 3 trips outwards from Puma Energy Milford Terminal 1 or 2 berths with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 with an exemption certificate holder. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

Note: Provided that a candidate already holds an exemption for Zone 3EE then only 1 inward and 1 outward trip is required.

- b) A ship of 130m but not exceeding 150m in length overall;

6 trips inwards and 6 trips outwards from Puma Energy Milford Terminal 1 or 2 berths with a Milford Haven authorised pilot or at least 6 trips with a Milford Haven authorised pilot and 6 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

- c) A ship of 150m but not exceeding 190m in length overall

10 trips inwards and 10 trips outwards from Puma Energy Milford Terminal 1 or 2 berths with a Milford Haven authorised pilot or at least 10 trips with a Milford Haven authorised pilot and 10 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

- d) A ship over 190m in length overall

20 trips inwards and 20 trips outwards from Puma Energy Milford Terminal 1 or 2 berths with a Milford Haven authorised pilot or at least 20 trips with a Milford Haven authorised pilot and 20 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

ZONE 2V - Valero 1, 2, 3, 6, 7 & 8

- a) A ship of 50m but not exceeding 130m in length overall.

ZONE 5F - Pembroke Dock Ferry Terminal

- a) A ship of 50m but not exceeding 130m in length overall.

3 trips inwards and 3 trips outwards from the Pembroke Dock Ferry Terminal with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 1 inward trip inward and 1 outward trip to be during the hours of darkness.

- b) A ship of 130m but not exceeding 150m in length overall.

6 trips inwards and 6 trips outwards from the Pembroke Dock Ferry Terminal with a Milford Haven authorised pilot or at least 6 trips with a Milford Haven authorised pilot and 6 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

- c) A ship of 150m but not exceeding 190m in length overall.

10 trips inwards and 10 trips outwards from the Pembroke Dock Ferry Terminal with a Milford Haven authorised pilot or at least 10 trips with a Milford Haven authorised pilot

and 10 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

ZONE 5C - Carr Jetty - Svitzer Marine Ltd tug berth

- a) A ship of 50m but not exceeding 130m in length overall.

3 trips inwards and 3 trips outwards from Carr Jetty with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

- b) A ship of 130m but not exceeding 150m in length overall.

6 trips inwards and 6 trips outwards from Carr Jetty with a Milford Haven authorised pilot or at least 6 trips with a Milford Haven authorised pilot and 6 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

- c) A ship of 150m but not exceeding 190m in length overall;

10 trips inwards and 10 trips outwards from Carr Jetty with a Milford Haven authorised pilot or at least 10 trips with a Milford Haven authorised pilot and 10 trips with an exemption certificate holder. At least 50% of the trips to be during the hours of darkness.

ZONE 5M - Offshore Jetty - Currently not in use

- a) A ship of 50m but not exceeding 130m in length overall.

3 trips inwards and 3 trips outwards from Offshore Jetty with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

ZONE 6 - Pennar Gut

- a) A ship of 50m but not exceeding 100m in length overall.

3 trips inwards and 3 trips outwards via Pennar Gut with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder.

Note: No ships accepted during the hours of darkness in Zone 6 except by agreement.

ZONE 7 - Cosheston Pill

- a) A ship of 50m but not exceeding 100m in length overall.

3 trips inwards and 3 trips outwards via Cosheston Pill with a Milford Haven authorised pilot or at least 3 trips with a Milford Haven authorised pilot and 3 trips with an exemption certificate holder.

Note: No ships accepted during the hours of darkness in Zone 7 except by agreement.

5. TUG USE ENDORSEMENT – OPTIONAL

Note: PEC applicants do not have to be so endorsed but must take a pilot for berthing if tug use is required.

- a) The Authority will provide an ‘information pack’ consisting of a Basic Introduction to Tugs and Towing CD supplied by Svitzer Marine Ltd. Applicants can also study 2nd edition ‘Tug Use in Port’ by Capt. Henk Hansen.
- b) The Authority will provide a booklet with details of Milford Haven tugs and procedures used by the Authority's pilots and tug Masters.
- c) One tug familiarisation trip with a Milford Haven authorised pilot aboard PEC holder's own ship. This is to take place every three years to discuss operational limits, capabilities, etc. with pilot.
- d) One familiarisation trip aboard a Svitzer Marine Ltd harbour tug. This is to take place every three years to discuss operational limits, capabilities, etc. with tug Master.
- e) This requirement will take effect three years from the date of first publication of this document.
- f) Irish Ferry PEC holders will not make a tug fast in routine operations. To have the tug endorsement, procedures will be agreed between the Authority, Svitzer Marine Ltd and Irish Ferries to allow the tugs to provide pushing assistance.

6. RENEWALS

- 1) Pilotage certificates will be granted for a period not exceeding 1 year and will be renewed upon written application by the holder supported by the owner of the ship or ships to which it relates if the Authority is satisfied that the applicant has, during the previous year
 - a) Piloted the ship or ships to which the certificate relates on at least the same number of occasions as that required for the initial exemption.
 - b) There has been no incident involving the certificate holder.

THE UK'S LEADING ENERGY PORT

Document Type	Management Procedure			 Port of Milford Haven
Document Number	MAR-OPS-GUI-003			
Document Name:	Pilotage Exemption Certificate Requirement			
Date Issued:	11/10/2025	Revision:	0	
Sensitivity:	Public	Page No:	16	

- 2) Where candidates fail to meet the above then a renewal may be granted subject to a further examination.

7. PEC – CLASSIFICATION FOR TUG AND BARGE COMBINATIONS

For tug and tow LOA to 100m maximum (to include length of tow rope). Tugs to be nominated by the towing Company, any new tonnage to be added as and when the Company declare the coxswain/master is familiar and competent to handle that vessel.

Tripping requirements with an authorised Milford Haven pilot: -

River Zones:

Zone 1 – 1 trip inwards and 1 trip outwards via both East and West channels. 1 inward trip and 1 outward trip to be during the hours of darkness.

Zone 2 – 3 trips inwards and 3 trips outwards. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

Zone 5 – 3 trips inwards and 3 trips outwards. At least 1 inward trip and 1 outward trip to be during the hours of darkness.

Berth Requirements – 1 trip inwards and 1 trip outwards from each berth zone with a Milford Haven authorised pilot.

Berth Zones:

- a) South Hook LNG Terminal
- b) Puma Energy Milford Terminal
- c) Valero Terminal
- d) Milford Docks
- e) Dragon LNG / VPOT Terminals
- f) Pembroke Port
- g) Ledwoods Quay
- h) Pennar Gut

These trips are to be carried out within one twelve-month period.

Document Type	Management Procedure			 Port of Milford Haven
Document Number	MAR-OPS-GUI-003			
Document Name:	Pilotage Exemption Certificate Requirement			
Date Issued:	11/10/2025	Revision:	0	
Sensitivity:	Public	Page No:	17	

For renewal these same trips to be carried out in the preceding twelve months.

On application, candidates will be required to attend VTS for familiarisation and pass an oral examination on the zone(s) applied for.

To add vessels or zones to the PEC candidates must complete the tripping requirements and add apply for the vessel/zone to be added. However, river zones cannot be added to a berth zone without another examination. Berth zones can be added to river zones on application.

This option does not require the tug endorsement.

8. EXAMINATIONS

Examinations will be conducted by persons appointed by the Authority experienced in navigation, navigational procedures and berthing and unberthing manoeuvres. The matters on which candidates will be required to satisfy the examiners will include:

- 1) Their competence to navigate safely in the Haven, or that part of it to which the certificate is to relate and to manoeuvre safely onto and from the relevant berths located in the area to which the certificate is to relate.
- 2) Their appropriate response to contingency situations e.g. loss of power, including use of tugs.
- 3) Their knowledge of local byelaws and regulations, tidal and geographical conditions and buoys and other navigational marks.
- 4) Their practical familiarity with the use of local tugs for assisting the ship or ships to which the certificate is to relate when berthing and unberthing, see section 5;
- 5) Their knowledge of communication procedures in operation in the Haven.
- 6) Their working knowledge of spoken English.
- 7) Their acuteness of vision and colour perception.
- 8) Knowledge of tug capabilities and usage in Milford Haven.

9. PEC SUSPENSION & REVOCATION

- 1) The CHA has the right to suspend or revoke a PEC for any of the following reasons:
- Whereas a result of an occurrence the CHA is no longer satisfied an Authorised PEC Holder has the skill, experience and local knowledge sufficient for them to be capable of piloting the ship for which they hold a PEC within the CHA area, or such part of the CHA Area as may be so specified.
 - Where the CHA believes that the Authorised PEC Holder has provided false information to the CHA as to any of those matters.
 - Where the CHA believes that the Authorised PEC Holder has been guilty of professional misconduct whilst piloting a Ship; or

Note: the CHA considers that failure by an Authorised PEC Holder to comply with the terms and conditions of their PEC is professional misconduct.

- Where pilotage is carried out in reliance on a person's PEC, and the act of pilotage was carried out by a person who was neither an Authorised Pilot nor the notified Authorised PEC Holder.

2. In the event the CHA decides to suspend a PEC in accordance with the above, it may communicate the fact of immediate suspension to the Authorised PEC Holder by any mean available and will follow up with written notice of suspension.

3. In the event the CHA is considering revoking a PEC in accordance with the above, it will provide written warning to the Authorised PEC Holder stating the reasons for the proposed revocation and allow the person a reasonable opportunity to make representations to the CHA.

4. Depending upon the outcome of the CHA's considerations, the PEC may be revoked permanently, or further conditions imposed upon its use either temporarily or permanently.

10. FEES

For Pilotage fees see the Milford Haven Port Authority – www.mhpa.co.uk.
The fees can be found under Marine Services / Port Charges / Pilotage Charges.

11. SIMULATOR

Up to two simulator trips can be selected to supplement actual trips but these trips must be one or two of the last two trips carried out. This means that to use a simulator trip as a qualifying trip, it needs to be one of the last two overall trips. This is to assist the Master if they are running short of one or two trips before expiry of their current PEC. The Master will then be given the option to attend the simulator if time constraints mean it is easier than getting a pilot and physically doing the trip.

Use of the simulator is subject to availability and in 2019 incurs a cost of £1,741 for a 4-hour slot
